Movement for every heartbeat

We don't just create playgrounds and outdoor recreational equipment. We design unforgettable experiences – pla(y)ces that bring joy and inspiration to everybody.

We are serious about play and movement. At Lappset, our mission is to improve the well-being of the world by creating inspiring spaces that stretch the imagination, foster learning, respect nature, and encourage activity for all mankind and every age group. Lappset philosophy is to design outdoor recreational equipment, playgrounds, and parks that are always as socially inclusive as they are sustainable.

Our dream is to strengthen the heartbeat of more than a billion people by 2030.

Create bold combinations

By integrating various Lappset product groups, you can create a cohesive space where play equipment, sports facilities, and park furniture come together, appealing to a broad audience. Why separate a playground from a gym? A park can simultaneously offer areas for children's play, parents' workouts, and a picnic site for the entire family.

Stellar know-how from the happiest country* in the world

Lappset is a Finnish, Lapland-based family business. For over 50 years, we have been passionate about playing and exercising, creating playgrounds, school courtyards and communal sports facilities worldwide. Our long experience, continuous development work, and strong mission ensure that our play and sports equipment rank among the best and safest in the industry.

Learning and inclusiveness are in our Finnish DNA: we take inclusivity to heart with everything we design and create. Our products are always designed and manufactured in compliance with applicable safety standards. (*World Happiness Report 2023)

New product innovations

Your trusted long-term partner

We develop enjoyable new concepts and strive to bring the best innovations to users first.

Our comprehensive maintenance services, combined with exceptional Nordic expertise, ensure that Lappset playgrounds and creative activity parks operate comfortably and safely all year round.

Fun fact! Lappset is a play on words. In Finnish, the word "lappset" means "children." The name combines "Lap-" from "Lapland" with "-set," which refers to a set of equipment.

Nordic pinewood – naturally durable, safe and sustainable

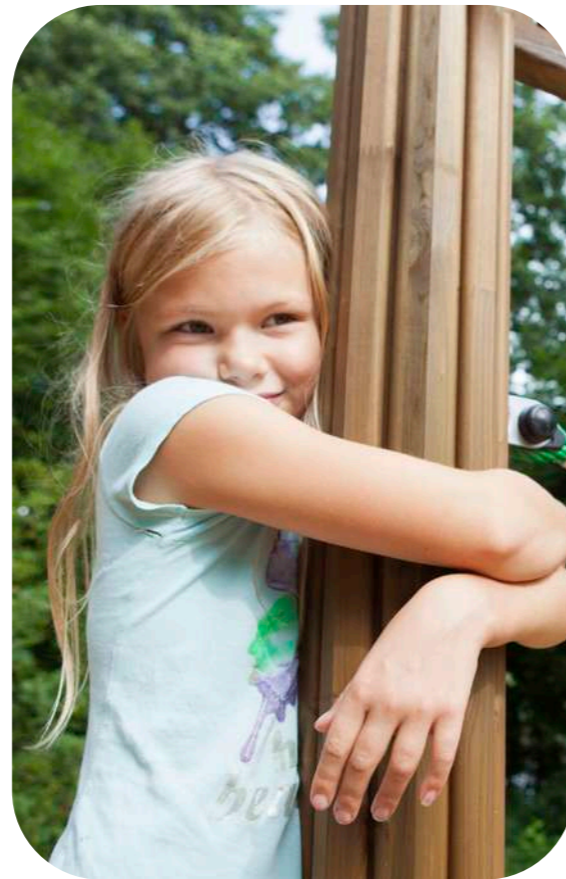

The future is built on wood and we are the leading experts in wooden playground and outdoor fitness equipment solutions.

Nordic pine (*Pinus sylvestris*) is an excellent material when creating unique playgrounds. It's an ecological, environmentally friendly, and renewable natural resource with a low carbon footprint. It has a natural and warm appearance, making playgrounds and outdoor furniture feel more inviting.

Wood is also an ideal material from a design perspective, as it can be formed into many different shapes and can easily support both tall and heavy structures.

Extreme Arctic durability

Nordic pine is renowned for its exceptional durability. It is ideally suited for a very wide range of climatic conditions, enduring everything from the

challenging winters of the north to the intense southern sun and humidity of coastal areas.

Its slow growth in the harsh climates of the north results in wood that is notably hard and resilient. This makes it more suitable for outdoor furniture compared to wood from warmer climates. In Finland, Nordic pine has withstood the four dramatically different seasons, adapting to weather conditions that vary from one extreme to another.

In order to ensure the long life of our high-quality playground equipment, we use a closed process to treat our wood with safe and environmentally friendly preservatives.

Designed in compliance with European and ASTM safety standards, and crafted from PEFC-certified Nordic pinewood and other carefully selected safe materials, our products reflect the responsibility we uphold as a family-owned company with firm roots in Lapland's pure nature.

Play with the natural beauty of wood

Get creative and design timeless, soothing environments with 'Natural Tone', our non-painted colour option now available for our wooden play and sports equipment!

LAPSET

Play

Learning and joy
from play!

Everywhere in the world, children play if given the chance. A safe and inspiring playground supports learning and a child's holistic development. It feeds creativity, strengthens the ability to concentrate and develops social skills and motor functions.

Our basic philosophy is to provide children and their parents with a chance to play and exercise together. Our climbing frames, slides, carousels, spring riders, sandboxes, and numerous other play equipment offer memorable moments for all ages.

Inclusive products

We want to create environments that are accessible and engaging for people of all ages and abilities. Our inclusive products enable everyone to move on their own terms. You can identify these products in the catalogues by the yellow sun symbol.

PLAY

Moomin Play

The Moominhouse welcomes everyone

The Moomins are the central characters in a series of books and comic strips by Tove Jansson, a Finnish renowned painter, illustrator and author. All in all, she published eight novels, collections of short stories, four picture books and numerous comic strips about the Moomins between 1945 and 1980. The Moomins have since been the basis for numerous television series, films and theme parks. Moomins value friendship, courage, tolerance, equality, and respect for nature.

The Moomin-themed collection has been designed to inspire children of kindergarten and junior school age, to support their learning, and to give children authentic experiences set in the Moominland surroundings. The Moomin playgrounds located in public parks with free entrance are open to everyone. They invite the Moomin lovers of various ages to play with friends and marvel at the charming fairy-tale world.

Bespoke playgrounds

Unique playscapes tailored to your needs

Copyright Tracy Autem & Lightly Photography
SPEC Play

Want to create more than a playground? A great experience that will attract visitors even from far away? Unleash your imagination when planning a destination playground. Be wild, go crazy and have fun! We take care of the rest.

Let your imagination flow and explore endless possibilities with Lappset's tailored solutions to create bespoke playgrounds and public areas. The team at Lappset helps you to design unique playgrounds according to your wishes.

Sculptural or themed design?

We offer two distinct design directions that will ignite your imagination and bring your project to life.

The sculptural design integrates seamlessly with its architectural environment. Picture a structure that becomes a work of art, either as a landmark or by blending harmoniously with its surroundings.

We can also start by captivating a story, and making a **themed design** for those seeking an immersive adventure. Imagine stepping into a world of pirates, where every corner is a new chapter waiting to be explored.

PLAY

Halo

Infusing the joy of play
with the art of design

The design-award winning Halo is a delight to the eyes of both children and adults.

High-quality materials such as Nordic pine, steel, laminates and special plastics are durable, and Scandinavian design brings a flair of modern elegance to the world of play.

Halo is suited for the urban play environment, and consists of gracefully matching modules. The design has considered the lighting of the structures around the clock.

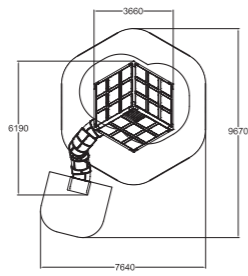

Halo Cubic gives you a multitude of possibilities for building a variety of entities and also extending the playground upwards. Halo Diamond is an exciting option that will transfer play to a completely new plane.

The design of the Halo range was awarded with the German Design Award in 2016.

Wall-Holla

Let your imagination fly high!

Wall-Holla brings play to a new level. In this modern climbing frame, people of different ages can enjoy adventurous play within a safe steel structure spanning several floors. Platforms and steps affixed to the external surfaces create an almost endless network of possible routes. Progressing through this system improves balance, decision-making abilities, and imagination.

Wall-Holla is a functional solution even for smaller spaces. With its striking design, Wall-Holla is an exciting and yet practical eye-catcher at the same time.

Designed by Carve.

PLAY

Flora

– a fairytale forest in
the heart of the city

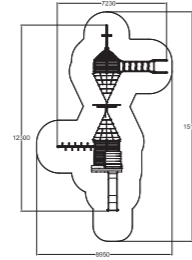

Step into the world of fairies and goblins. Inspired by nature, the Flora playgrounds blend harmoniously with their surroundings and are at their best in a parklike environment. The organic forms from nature are visible in the softly undulating roofs and lines of the equipment. The dark-stained, tight-grain pine lends the playground a mystical atmosphere similar to

one you would find in the Nordic forests. Flora offers options for playing and exercising for the whole family.

Installation of the products, replacement of spare parts and maintenance has been made as easy as possible. At the same time, Flora is an environmentally friendly choice.

PLAY

Finno

– the colourful classic of playgrounds

The Finno playground equipment collection has been designed together with the users. Its open and airy design positively welcomes all to have fun and play. Most of the products are available in five predesigned colour schemes to make your selection and design work easier. You can also customize the product completely to your own liking, as Finno offers a myriad of different combinations.

Scandinavian lines and harmonious colour schemes can easily be combined with other product families, such as outdoor sports equipment. This makes it easy to create

playgrounds that cater for users of all ages. One of our basic philosophies is to provide children and their parents with a chance to move and exercise together.

Choose from five ready-made colour themes, or design your own colourful solution! Learn more about products and theme colours: lappset.com

Finno in different colours – choose from five ready-made colour themes

Finished colour schemes make selection and design easy. All Finno products are available in different colour themes. You can also freely combine your own colourful solution with different colours!

For more information on products and colours, visit lappset.com.

All Finno colour themes are also available with Natural Tone, our non-painted option for the wooden frame.

PLAY

Theme play

– creating platforms
for children's stories

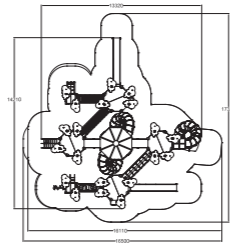

Get on board a ship or fly in a helicopter! Our fun and inspiring themed play equipment adheres to familiar topics in imaginative ways. The collection offers spectacular play solutions that will keep imagination running for years to come. You can easily combine themed products with other collections as well.

Themed playgrounds are a great way to highlight the local environment in playground design; for example, by building a grand playship near a harbour or your own railway station in an urban environment.

PLAY

Clover

– durability
and affordability

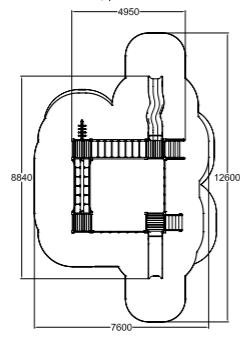

- 1 175075 Swing Frame
- 2 175020 Zig-Zag Track
- 3 175006 Climbing Frame
- 4 175055 Motoric Track
- 5 010503 Dino
- 6 175070 Seesaw

The retro-style Clover collection is durable, affordable and almost maintenance-free. In Clover playgrounds, children can engage in the most traditional play activities. They can use their energy for climbing, hanging, balancing, swinging and sliding.

The easy-to-install Clover blends well into the surrounding environment both in terms of colour and design, especially when located in natural surroundings. The products can easily be customized and combined into versatile playgrounds or track-type solutions.

Cloxx

– a playground
with street cred

- 1 220468 Uranium
- 2 220131 Oxygen Mini
- 3 220520 Spider Cage S

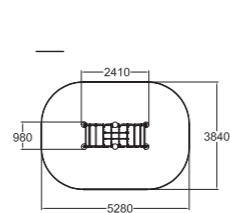

Cloxx products are made to withstand heavy wear and extreme conditions. They have been designed to look at home in the urban concrete jungle and they offer enough challenge to meet the demands of even the most exacting daredevils.

Cloxx playgrounds encourage diverse mobility. They are exciting and look sufficiently streetwise even to those who have reached

the age when cuddly things just will not wash anymore. The vivacious shapes and geometrical structures of Cloxx products challenge the children to come up with new routes and to develop new worlds for their play. Cloxx is conveniently carefree and stays tidy-looking and safe for a long time without any major maintenance.

PLAY

Cloxx Parkour

– imagination and
motion taking off

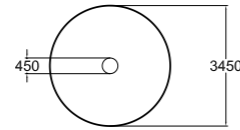

Cloxx Parkour products encourage urban and imaginative space exploration. These durable and maintenance-free products provide inspiration to parkour enthusiasts of all ages, and are an excellent choice for an urban environment. Cloxx Parkour products conform to the European Standard for Playground Equipment EN1176, making them suitable for schoolyards and playgrounds as well.

By integrating Cloxx Parkour products into Cloxx playgrounds, the area can easily become a communal hangout for all age groups. The lively shapes and sturdy structures of the products allow the imagination to take off in both play and movement.

PLAY

Solitaires

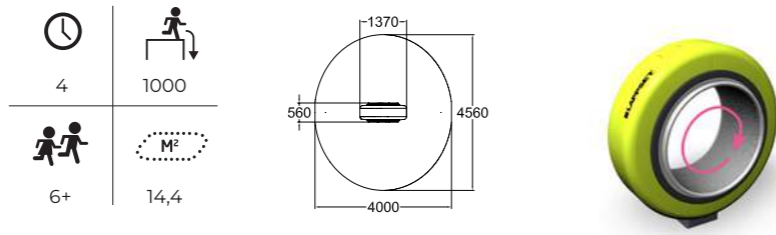

– fun equipment to spice up the playground

The playground classics add to the fun of the park and complete the enjoyment experience. Individual products fit into larger entities or lighten up play areas as stand-alone equipment.

The fun rocking animals can tolerate almost any amount of rough riding, but they are also suited for the smallest of children. Extra fun to the park is brought by different types of seesaws, balancing stands or a volt machine that makes your head spin from both the fun and the movement.

Use SoftBlock elements to create colourful and functional environments

We will provide you with the safest rubber granule products of the highest quality.

The TÜV SÜD-certified products have passed the tests conducted in accordance with the Playground Equipment Standard EN1176:2008. It guarantees that the rubber granules and binders used for playground surfacing do not contain any substances hazardous to health. Part of the material used is recycled rubber, and it can be recycled further. From the perspective of accessibility, rubber granule products are easily accessible, and they can be used for creating a variety of surface contours and fun balancing routes.

Dyed recycled rubber

The material is made of recycled black styrene-butadiene rubber (SBR) granules and dyed PU polyurethane binder, no RAL codes.

EPDM rubber

EPDM is a synthetic rubber material that does not wear in use, because all the granules are dyed through. The coating of EPDM products is EPDM rubber and the inner parts are dyed recycled rubber. The products have been divided into two different price categories: EPDM 1 and EPDM 2.

EPDM 1

EPDM 2

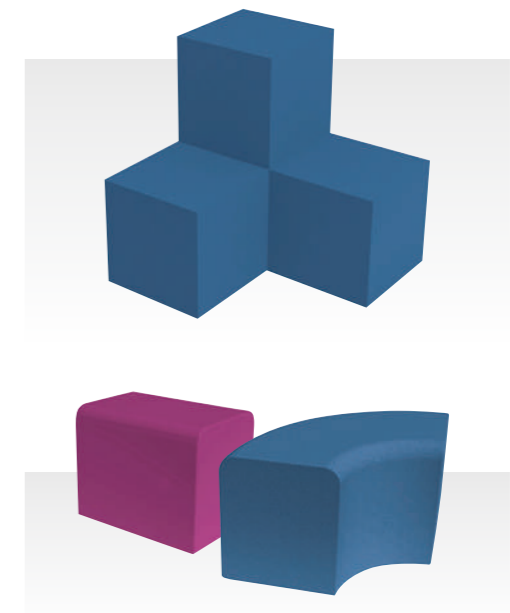

The unique SoftBlock products are suitable for being used as benches, space dividers and balancing tracks, among others. They can stand alone, or they can be combined into different assemblies in such places as sidewalks, shopping malls or parks. Build your favourite combo from a wide range of colours. Indoors, the products can be glued directly to the base. In outdoor use, the elements can be mounted on concrete or installed, for example, on a rubber base. If you need a deep foundation, you can order the necessary installation parts from Lappset.

PLAY

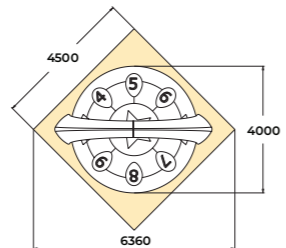

Interactive Play

– digital interaction and experiences outdoors

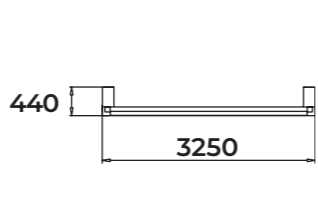

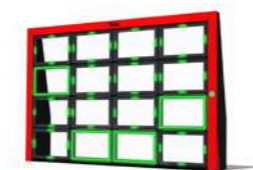

We see interactive play as the bridge between the digital and the real world, like gaming in the physical world. The gaming world offers imagination, learning, fun, variety, the excitement of reaching the next level, and the possibility to adapt levels to an individual player. The physical world brings physical

activity, social interaction, community involvement, and the rewarding feeling of being outdoors. Combining both worlds brings our development to the next level. We consider interactive play to be the best of both worlds, appealing to people of all ages.

LAPPESET

Sport

Exercising is a shared activity

A well-designed outdoor sports facility brings people of all ages and fitness levels together. Good muscle strength also prevents injuries and helps to maintain functional ability as we age. When training is safe and fun, up to three generations can share the fun in an outdoor sports area at the same time.

Outdoor gym equipment, parkour equipment and senior sports products create modern and versatile training conditions, regardless of age and fitness level. By combining equipment from different product groups, you can create an inspiring local outdoor fitness area for both everyday exercisers and active athletes.

Inclusive products

We want to create environments that are accessible and engaging for people of all ages and abilities. Our inclusive products enable everyone to move on their own terms. You can identify these products in the catalogues by the yellow sun symbol.

SPORT

Sisu Fitness

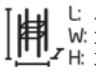

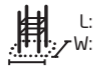

– more strength and endurance

Whether it rains or shines, Sisu Fitness will guarantee you a proper outdoor workout. With Sisu Fitness equipment, everyone can create a suitable, comprehensive, and challenging muscle fitness program. The exercises are not only easy but also safe and fun. The stepless resistance adjustment makes the equipment ideal for all users, regardless of their fitness level. As you build muscle strength, increasing

the adjustable resistance adds motivation to exercise even more.

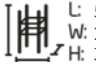

The bold design of Sisu Fitness equipment pleases the eye and fits in perfectly in a urban city environment. High-quality materials ensure that the equipment withstands both hard workouts and changing weather conditions.

SPORT

Street Workout

– bodyweight training and impressive strength

The Street Workout equipment enables effective and versatile bodyweight training. A compact training area can be adapted to even a small space because, for example, dip bars, chinning bars, and pull-up bars are integrated into a single unit.

The Street Workout equipment has been developed in cooperation with the Finnish Street Workout Association and is suitable for urban courtyard environments, playgrounds, and jogging trails alike.

Choose from four ready-made colour themes, or design your own colourful solution!

SPORT

Classic Sport

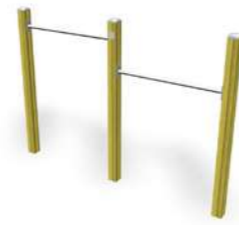

– timeless durability

The Classic Sport equipment is an ecological and affordable choice for all environments. The equipment allows a fitness trainer to perform a muscle strength routine suited to their fitness level and to diversify the movements, for example, by means of an elastic resistance band.

The name of the series refers to classic, time-enduring basic exercises and timeless design. The pressure-treated wood and grey metal as materials are long-lasting and easy to maintain. By combining equipment, it is easy to construct a training area for runners to train their muscle fitness, as well as a small-scale obstacle course or a street workout area for schoolchildren to enjoy.

SPORT

Gym

Outdoor gym training

Gym training with a good supply of fresh air. The design of each piece of Gym equipment is so simple that it automatically steers people to do the exercises correctly, which improves safety and motivation. In the exercises, the trainers themselves function as the engine and the weights.

The fresh colour options are lime, grey, and white, which provide a wide range of possibilities for designing the area. The equipment can be easily serviced, and it has been manufactured from wear- and weather-resistant materials.

SPORT

Senior Sport

– functional capacity for everyday life

The Senior Sport equipment maintains and improves the muscle tone, mobility, and motor skills of the elderly. The exercises are designed to strengthen seniors' ability to function in everyday life, such as climbing stairs, bending, or walking on uneven surfaces.

Our mission is to have people of all ages moving. A fitness session also adds a social dimension, as the Senior Sport area is a natural way for all generations, from grandparents to grandchildren, to spend time together.

SPORT

Dash Parkour

– uninterrupted movement
and rough training

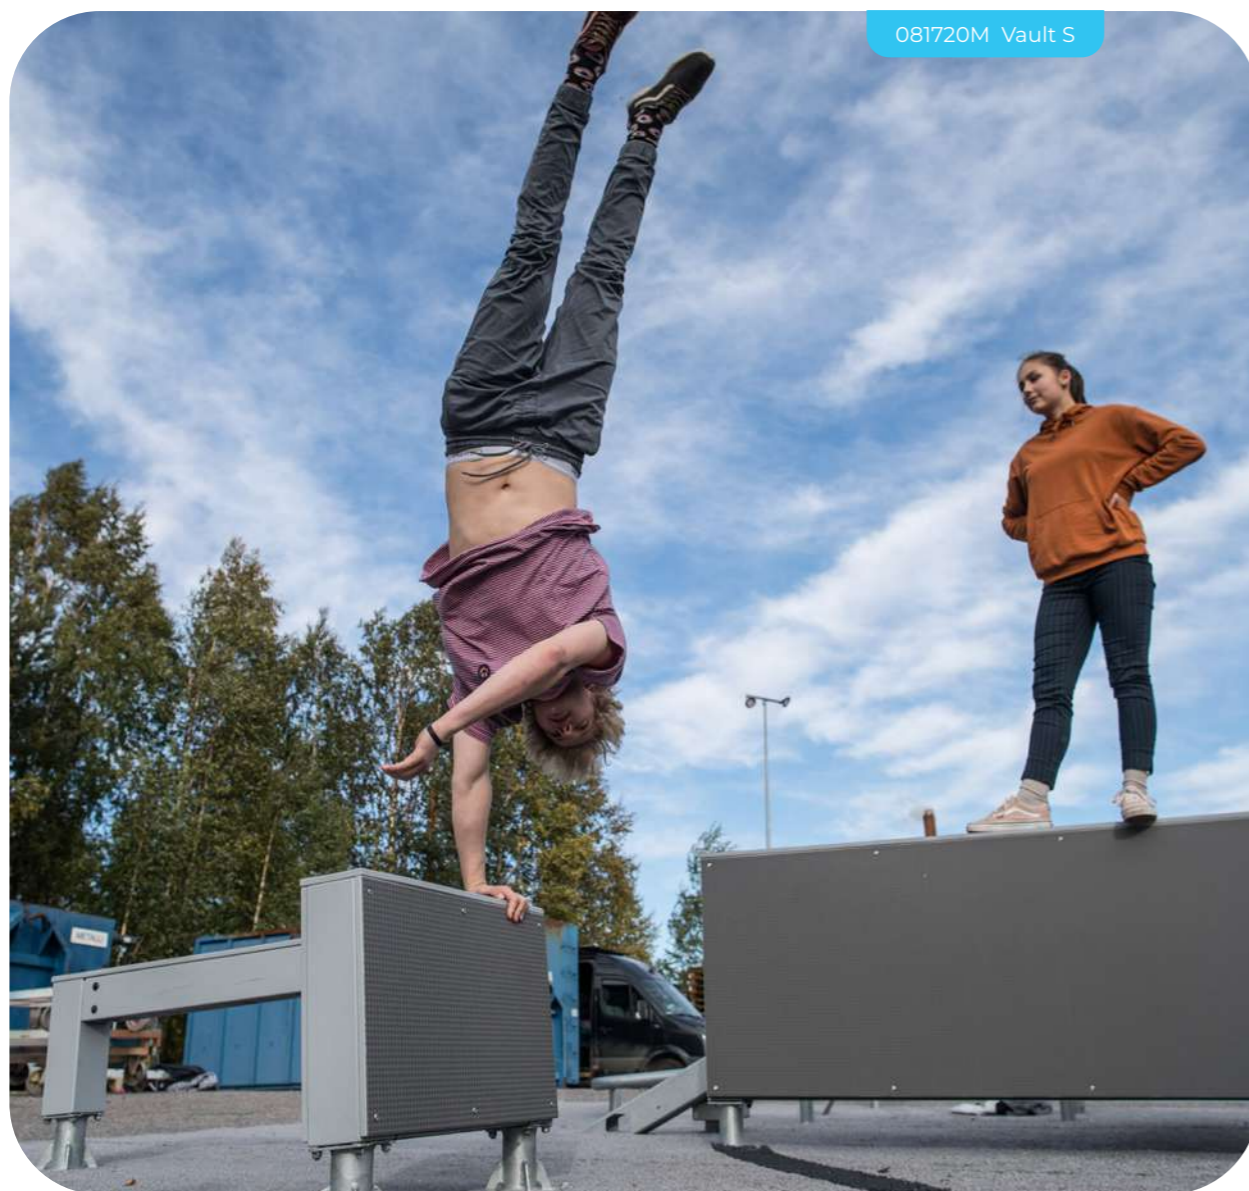

The goal of parkour is to achieve smooth, uninterrupted movement in an impressive manner. This communal hobby develops creative movement, body control, and interaction with the environment. Dash Parkour equipment is designed in cooperation with Parkour Academy. The equipment offers enthusiasts a training place that conforms to the requirements of the sport, where it is safe and permissible to hone the movements.

Parkour areas fuel our imagination and provide a wide range of possibilities to use different kinds of movement routines and

route options for all ages. In the design of the area, you can make use of ready-made area designs or turn to Lappset's MyDesign service, where our designers collaborate closely with the sports professionals.

Dash Parkour equipments are designed according to SFS-EN 16899:2016.

When the falling height is less than 1 600 mm, there is no requirement for impact attenuating surface (IAS). The free height of fall shall be determined from the top of the equipment.

Lappset Tag

– catch me if you can

Dash Parkour Tag game areas will elevate games like tag and 'The Floor is Lava' to a whole new level. The familiar rules of the games are the same as always, but the ready-made game area entities make playing much more fun. Everyone can play according to their own skill level and imagination.

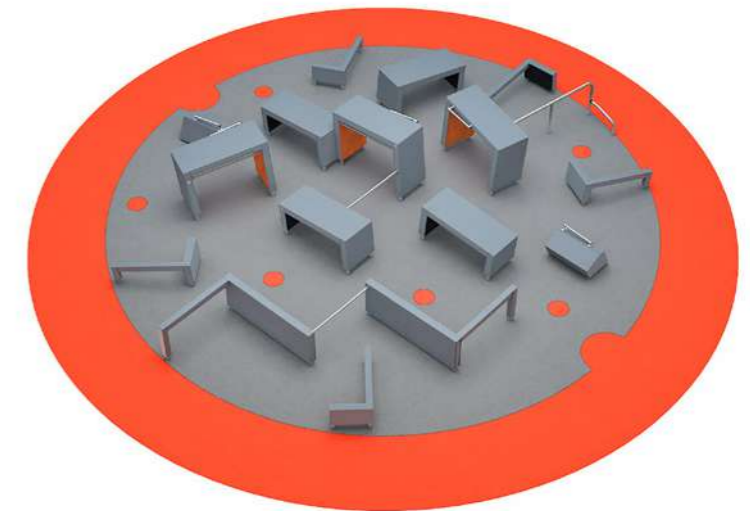

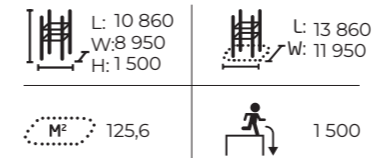

The surface of the rough and durable equipment is made of non-slip material. With this equipment, you can create a game area that promotes both imagination and agility – perfect for a schoolyard or a park. The last one squatting is the first tag – let the game begin!

081790M TAG 1 – High and Low

Size: 10,9 x 9 m

Products:
081702M, 081712M, 081720M, 081721M, 081723M, 081730M,
081731M, 081736M, 910328.

TAG 1 is designed to comply with EN16899 standard.
Surface not included.

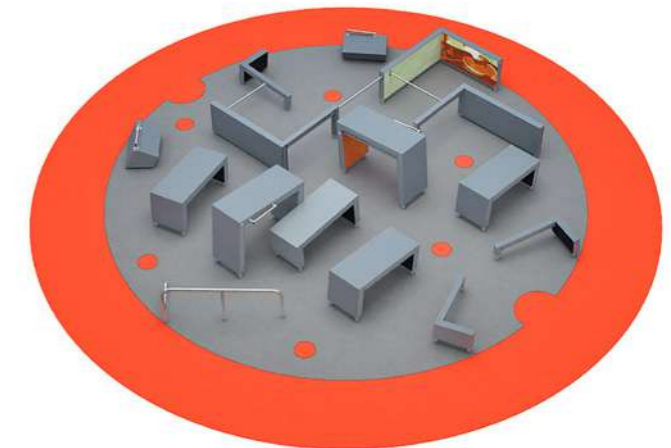

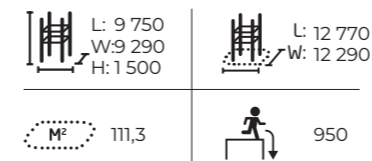

081791M TAG 2 – Over and Under

080851 Metal Arena

SPORT

Ball games and arenas

Ball games offer opportunities for social activity at its best

Our range of urban ball game arenas offers durable street-credible options regardless of the sport. The compact Panna ball field is easy to acquire and place anywhere, such as a housing company yard or a local park. The metal structure tolerates rough use and changing weather conditions.

All the Lappset arenas are suitable for soccer, but with add-ons you can also extend it to suit

floorball, basketball, and volleyball. The sturdy wood-structured arena blends into its surroundings and invites you to play all year round.

Order the goals and stands for different ball games in the same delivery directly from Lappset!

LAPPSET

Park

Style and functionality for everyday life

Beautiful and practical furniture will make a playground or outdoor sports area even more welcoming and versatile. The comfortable benches, tables, and pavilions are made for those relaxed moments shared together. They call for a small respite also in shopping malls, inner courtyards, and parks.

Our park and street furniture is manufactured in a variety of colour combinations, with high-quality materials that withstand time and wear. With elegant litter bins, planters, bicycle racks and dusting racks, you can easily transform the atmosphere from classic to modern or from rustic to romantic.

Inclusive products

We want to create environments that are accessible and engaging for people of all ages and abilities. Our inclusive products enable everyone to move on their own terms. You can identify these products in the catalogues by the yellow sun symbol.

P A R K

Benches, chairs and tables

Lappset's equipment includes furniture groups for all environments – playgrounds, parks and courtyards. With our functional furniture solutions, you can create uniform environments over large areas and transform outdoor areas into comfortable spaces. The beautiful benches and tables invite you to spend a leisurely time reading, having a picnic, or just resting for a while in the midst of play.

Furniture for all

We want to be involved in creating environments that connect people and bring joy to everyone. Our aim is that our furniture is suitable for all and accessible to all.

Availability is reflected in simple yet meaningful details: The high seat height and armrests help those with limited functionality and mobility to sit and stand up. A person in a wheelchair or an electric wheelchair may find it easier to use the table when it has one foot in the middle. The possibility of extending the tabletop of the picnic table from the other end is also an example of improving usability. The armrests can almost always be chosen as an accessory, and we can easily customise the furniture to suit the customer's wishes.

RF5004M Sofa Talking

PARK

Litter bins, ashtrays and info signs

Practical and functional litter bins as well as informative signs increase comfort and security in public spaces. Correctly selected litter bins, ashtrays, and signs fit their surroundings and make public spaces complete.

From our comprehensive range you will find the best solutions for every location. Placement of litter bins and ashtrays should be considered carefully to keep the environment clean - popular parks should be equipped with more bins than, for example, along running trails.

Park signs should show all relevant information for the playground or sport park users: owner of the park, address, and phone number where to call in case of emergency or maintenance issues.

Colour options for litter bins

P A R K

Bicycle racks

Our beautiful and functional bicycle racks create order and comfort in the environment. Bicycle racks can be used to indicate the desired storage location for bicycles and to provide a safe option for cyclists to lock their bicycles and secure them from thieves. If you want a bicycle rack with more room for bicycles than indicated in the brochure; please contact us!

PARK

Barbecues and firewood rack

Having barbecues is an integral part of summer and makes a pleasant activity for all. We have a range of barbecues in different sizes and styles, which are an elegant addition to residential areas, campsites or playgrounds. The barbecues can be used with both wood or charcoal. The design allows you to cook all your food on the grill grate above the embers. Our barbecues are handmade from 5-mm powder-coated steel, making them long-lasting and safe for public use.

PARK

Fences, railings, bollards and tree guards

The design of all Lappset fences, railings, bollards, and tree guards is beautifully classic, and they function as discrete partitions rather than barriers. The products increase safety and direct routes to run in appropriate places. The standup rails also function as a place of rest, something to lean against while waiting for a train or bus or for the training session to begin at a sports park.

RF7671AM Urban Rail 550 mm

L x W x H: 2040 mm x 40 mm x 550 mm
Design: Arne Nilsson. Underground concrete foundation.

RF7671BM Urban Rail Extension 550 mm

Softex® safety surfacing

Oopsy daisy!

There are always a few accidents on the playground. Lappset safety surfacing is designed to protect children so that most dangerous looking situations turn out to be just harmless little scares.

The purpose of the safety surfacing is to prevent injuries resulting from stumbling or falling from heights. The materials conform to the requirements of the EN 1176-1 safety standard as long as you match the thickness of the surfacing correctly to the product's fall height. Fixed safety surfacing requires solid, level and water-permeable ground underneath. Different colour options allow you to coordinate the colour scheme of your playground from the floor to the tips of the equipment.

Softex® synthetic turf

The strong base structure of the synthetic turf ensures a long-lasting product that can withstand repetitive freezing and rugged Northern conditions. The synthetic turf is available in many different colours and meets the requirements of the REACH regulation and, therefore, does not use chemicals that are harmful to health or the environment. We also offer lifecycle services for synthetic turf from installation to recycling.

Softex® wetpour safety surfacing

Made from rubber shreds and a polyurethane compound, Wetpour withstands even abrasive wear. Colours can be laid out in ways that help partially sighted users find their way around. Wetpour safety surfacing is a recyclable material.

Softex® safety tiles

Our safety tiles consist of colourful rubber granules that are glued together. The safety tiles are fast and easy to lay, which makes them a cost-effective floor solution. The tiles are mainly made of reclaimed materials, and they can be recycled again.

Softex™ wood chips

Softex™ wood-chip mulch is a natural, dust-free and non-allergenic safety surface. As a material, the mulch is attractive and easy to maintain, and it does not stick to children's clothing and end up indoors or wear the equipment like sand-based solutions. The mulch lasts for years and is easy and inexpensive to recycle at the end of its lifecycle.

Other natural materials

Natural materials such as grass, sand, gravel and bark are popular and affordable materials for safety surfaces. Gravel is suitable for larger fall heights and grass can be used with lower play equipment. Natural materials are easy to apply but require regular maintenance.

How to get a quote

- Go to lappset.com/en-GB/catalog where you can find all the products
- Collect the desired products in the product cart
- Enter any product modifications or additional information in the detail field
- Submit a request for a quote
- We will respond to you as soon as possible!

Delivery

Our products have been designed in accordance with requirements regarding efficient use of space and packaging for ease of transportation. The packages are placed on pallets to speed up the loading and handling, and significantly reduce transport damage and costs.

The products are delivered as components and elements with accompanying:

- Dispatch note
- Installation instructions
- Inspection and maintenance instructions.

Installation and maintenance instructions can also be found on our website!

Production time

- Delivery time varies between two (2) weeks and eight (8) weeks depending on product and season.
- The delivery time of standard products from the factory is usually four (4) weeks.
- Products with two weeks production time can be found from lappset.com

Installation

Each product comes with an installation guide, which you must follow to install the product. The installation guide can also be found on our website under the product in the product search. Components are clearly numbered in order to make the installation as easy as possible.

Note:

- Elevation and footing depths of the equipment must follow the installation instructions.
- The vertical parts must be vertical and the horizontal parts must be horizontal, as otherwise, the planned inclinations in the equipment may not conform to safety norms.

Minimum safety zones

The safety zone to be followed for each product will be indicated in the general layout plan in the installation guide. Up-to-date documents can also be found on our website. Products may change slightly during the validity of this catalogue, so the safety zone must always be built according to the installation instructions provided with the product.

If the guidelines for minimum safety zones mentioned in the installation instructions are not followed, the installer may have to accept the consequences of this negligence and compensate for any injuries sustained within the minimum safety zones.

Foundation

Playground equipment and other items must be permanently fixed to the ground. As standard, the playground equipment is delivered as versions requiring deep, or underground foundations. Alternatively, the equipment can also be surface mounted. When placing your order, please specify if you wish to opt for surface mounting.

Some equipment can be fixed to the ground using anchoring parts that must be ordered separately. The traditional use of concrete foundations is only required in certain cases. Details of specific foundations are given within the installation instructions.

Base

According to the EN standards, playground and outdoor exercise equipment must be assembled on a surface the critical fall height of which corresponds to the fall height of the equipment. The product standard determines the detailed requirements for the base and safety zone. The most common standards are:

- Playgrounds: EN 1176-1177
- Outdoor fitness equipment: EN 16630
- Arenas: EN 15312
- Parkour equipment: EN 16899

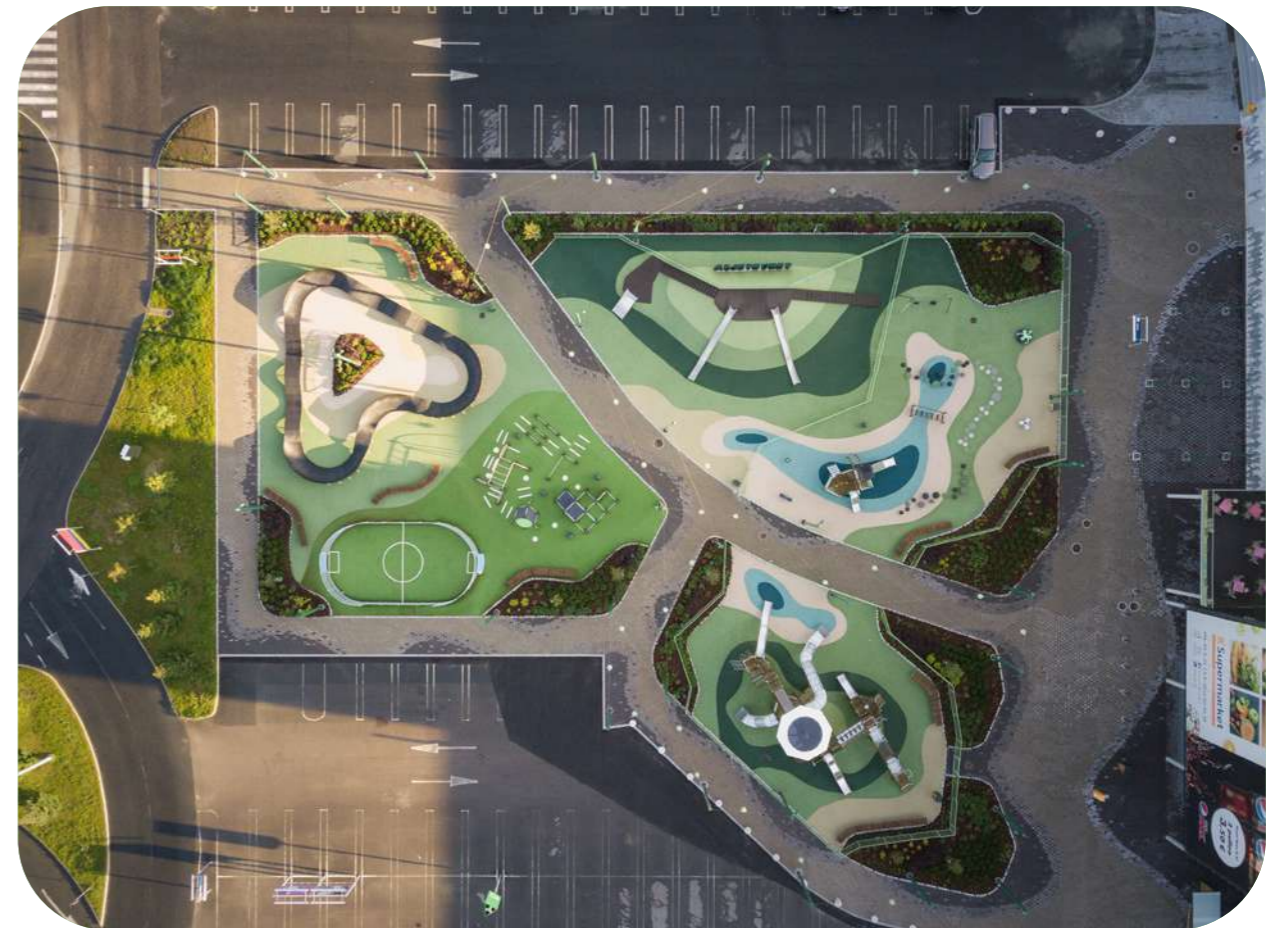

Base material

- The safety tiles made from rubber shreds are an easy-to-clean alternative for use as a safety surfacing.
- If loose materials, such as sand with a grain size of 0.2–2 mm or gravel with a grain size of 2–8 mm, are used, the required layer thickness varies between 25 and 40 cm.
- Elements can be assembled on top of grass, as long as their critical fall height does not exceed 1 m.

Fall zone

- In addition to the shock-absorbing base, there must be at least 150 cm of falling space extending around all parts of the product upon which users can climb.
- Most countries prohibit allowing sharp and hard objects in this area, such as cut stones or rough tree stumps. However, different countries may have different regulations regarding this space.

More detailed information on safe floor materials will be supplied with the assembly instructions.

Commissioning of the playground or exercise area

Before using the play or exercise area, a handover inspection should be performed. The handover inspection, log book and installation instructions accompanying the order confirmation or delivery are provided to facilitate the inspection of the safety and correct installation of the park area.

Please remember that the play or exercise area should not be used until the site has been cleared and the area declared safe!

Inspection and maintenance

By proper servicing, you will ensure the continuous safety of the park. Lappset's general product warranty is also subject to compliance with the maintenance instructions. Maintenance instructions can be found on our website!

- When drawing up the inspection and maintenance plan for the park area, consider the park's usage rate and susceptibility to vandalism.
- Carefully document the inspection and maintenance procedures.
- Remember that access to the area must be restricted, if the playground or exercise area is not safe to use due to lack of maintenance.

Product modifications

We develop our products constantly in line with international standards concerning both safety and quality. Therefore we reserve the right to modify our products and prices.

Patents and design protection

Lappset Group Ltd has valid patents and design protection for its products. All rights reserved.

Warranty

These warranty terms cover the products and components manufactured by Lappset as specified on the next page.

The warranty starts on the day the product is delivered from the Lappset Group factory. The warranty is valid only on the condition that the foundation, installation, and maintenance work have been carried out and documented according to Lappset Group's instructions. If necessary, a logbook of the handover inspection and documents for maintenance work carried out have to be presented.

Warranty times

20 Years limited warranty

Structural strength of:

- Steel components
- Elements made of high pressure laminate (HPL)
- Linseed oil treated parts

15 Years limited warranty

- Preserved wooden parts with no ground contact
- Preserved wooden parts with ground contact (in Europe)
- Aluminum components
- Fibre-reinforced plastic components

10 Years limited warranty

- Concrete parts
- Surface finish of steel and aluminum components
- Climbing grips
- Interactive products non-electronic parts like steel, aluminum and plastic construction parts

5 Years limited warranty

- Preserved wooden parts with ground contact (outside Europe)
- Wooden parts without pressure impregnation (Play and Sport)
- Steel reinforced nets and ropes
- Springs and spring nets
- Hot-dip galvanized surface treatment

3 Years limited warranty

- Rubber and rubber-coated parts, polyurethane parts
- Moving parts, malfunctions
- Wooden bodies of spring mobiles
- Steel cables, chains
- Surface finish of other than steel and aluminum components
- Painted or surfaced plywood boards
- Wooden parts without pressure impregnation (Park)

2 Years limited warranty

- Interactive products electronic parts
- Softex, durability of the material in Europe

1 Year limited warranty

- Ropes without steel reinforcement
- Textile elements and stickers
- Plaster-coated parts
- Other electronic components
